

# Alu Lite

A lighter way to get around

Yes, you can.

The *Invacare Alu Lite* is the basic-entry wheelchair in the Invacare manual range. The lightweight aluminium construction of this transit wheelchair makes it easy to manoeuvre, even for an elderly carer, as well as providing a wheelchair that is easily transportable.

### Easy to transport and store

Being lightweight (aluminium chassis), compact and with a foldable backrest, the *Invacare Alu Lite* is very easy to handle, transport and store. Simply remove the footrests, fold the backrest and chassis and store away.

### Pushing? No problem!

The overall manoeuvrability of a wheelchair is crucial, which is why the *Alu Lite* is designed to be very easy to push and manoeuvre, both indoor and outdoor. Due to the smaller overall dimensions and general compactness of this model, getting around in tight spaces is never a problem.

### Features and Options

#### Folding backrest

Reduces overall size when folded for transportation or storage.

#### Swing away footrest

Footplates fold up as shown and footrests swing away, allowing easier access in or out of the chair.

#### Foldable cross frame

Lightweight frame folds flat for easier portability.
