

Bedco Backrest

Simple solution – big impact

Yes, you can.

This electrically operated backrest from Invacare is designed for use in private homes in standard private beds. Easy to use and activate, the overlay mattress stays in place thanks to the fabric's texture.

The **Bedco Backrest** is ideal for travelling with, as it is very easy to mount and remove.

Features and Options

Motor can be mounted on either side

No loose parts: the motor, handset and transformer are always connected. The motor can easily be mounted on both sides.

Bag for easy transport

A handy bag for easy storage of hand set and transformer.

Bedco Anti-Sliding

Prevents the backrest from sliding when the backrest is being operated.

Comfort and functionality

The *Invacare Bedco Backrest* comes with maximum functionality. The backrest helps the client to establish a sitting position – making it easier to get in and out of bed. The texture of the fabric ensures that the mattress stays firmly in place. The backrest is available in 4 widths to meet individual needs.

Suitable for transport

Easy to transport (light weight, and no loose parts) the backrest can easily be mounted without need of additional tools. The motor can be placed on either side to meet individual needs. A 24V system increases the levels of safety.
