

Softform Flexipad

Range of highly versatile support pads

Invacare **Flexipads** are highly versatile pads filled with silicone gel, and can be used to position and support limbs, joints, the torso or head.

Facilitates positioning

Invacare **Flexipads** can be used to position a patient's limbs for treatment.

Facilitates support

Can provide supplementary short-term support for patients experiencing difficulty in maintaining posture.

Features and Options

Single Flexipad

Fitted with a strap for fastening to chairs, the **Invacare Flexipad** increases the surface area under elbows, arm or back.

Double Flexipad

Two gel sacs with a foam core – highly versatile in a number of applications, including supporting large bony prominences.

Flexipad Ultra

A lighter, more flexible format, available with or without straps.
