

# HomeFill® II

Freedom to breathe  
wherever you want

Yes, you can.™

The **HomeFill II** system from Invacare combines both innovation and practicality to create a discrete portable respiratory device that's safe and easy to use, carry and refill. The lightweight cylinder makes it possible to be more active and independent in every environment with confidence, knowing that the oxygen supply can be replenished at home at any time according to user requirements.

### Personal home oxygen supply

The **HomeFill II** from Invacare revolutionises ambulatory oxygen supplies by allowing patients to refill cylinders in the comfort and convenience of their home. It consists of a multi-stage pump that simply and safely compresses oxygen from specially equipped Invacare concentrators into oxygen cylinders. No need to worry about delivery or running out of oxygen – the **HomeFill II** provides unlimited ambulatory oxygen without any delivery cost for service suppliers.

### Take it with you wherever you go

Once the cylinder has been refilled, patients can slot it into a lightweight carry bag and take it with them wherever they go. Patients can also benefit from the **HomeFill II's** mobility and find themselves able to wheel and transport the device when visiting friends and family or when going on holiday.

### Easily adjusted to suit the patient's needs and simple refilling

The conserver can be adjusted to the treatment and oxygen dosage required by the prescriber from 1 to 5 LPM equivalent. Patients can now receive the right amount of oxygen with a greater efficiency than before\*. The **OxyLock** coupling system makes refilling the cylinders easy and effortless - simply switch the compressor on, connect the cylinder and the refilling process will start. After refilling, the device will automatically switch itself off, making it safer to use and eliminating the danger of mis-handling by the patient.

\* See clinical references at the back

### Features and options

Travelling is easy with the modular design.

### Carrying bag

The oxygen cylinder can be worn around the shoulder, improving overall comfort and convenience.

# Features and options

Combine with **Platinum 9** for high flow patients

**Oxygen cylinders with conserver for large autonomy**

Lightweight aluminium cylinders with integrated conserver and regulator.

**Front panel**

An on/off switch and lights that indicate your filling status.

**OxyLock**

An exclusive refill system that ensures a quick, safe and easy connection to the **HomeFill II** cylinder.

**Integrated regulator and conserver**

With protective cap and autonomy gauge.

**Range of lightweight cylinders**

To suit the needs of all patients. A range of continuous flow and conserver cylinders are available.

**Rear Handle**

for easy transportation. Hour meter measures the patient's compliance.

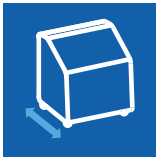

**Patient Priority**

**HomeFill II** automatically controls the fill process to guarantee >90% purity in the cylinder and high purity to the patient.

## Technical data

For more comprehensive pre-sales information about this product, including the product's user manual, please refer to your local Invacare website.

	Length	Width	Height	Weight	Charger	Power consumption	O2 purity
							
<b>HomeFill II</b>	400 mm	515 mm	380 mm	15 kg	230 V, 50 Hz	175 W	> 90%

## Technical data: Cylinders

Conservor Cylinder Autonomy in hours <sup>1</sup>						
	Setting 1	Setting 2	Setting 3	Setting 4	Setting 5	Continuous Flow (2L/min)
<b>1 Litre Cylinder</b>	10h 6min	6h 30min	4h 54min	3h 54min	3h 12min	1h
<b>1.7 Litre Cylinder</b>	15h	9h 36min	7h 18min	5h 54min	4h 48min	1h 54min

Continuous Flow Cylinder Autonomy in hours <sup>1</sup>											
Flow Setting	0,25	0,5	0,75	1	1,5	2	2,5	3	4	5	6
<b>1.7 Litre Cylinder</b>	16h 45min	8h 24min	5h 30min	4h 12min	2h 45min	2h	1h 40min	1h 20min	1h	50min	42min

Fill times <sup>1</sup>	
<b>1 Litre Cylinder</b>	1h 15min
<b>1.7 Litre Cylinder</b>	2h 5min

1. Times are approximate

## System requirements

The *Invacare HomeFill II* must operate connected to an *Invacare* oxygen concentrator (see relevant *Invacare* brochure).
