E2 Back Series

Invacare[®] **Matrx[®] E2[™] Back Series**

INNOVATION | COMFORT | FREEDOM

Yes, you can.™

Posture Support to enable independent mobility

The new **E2 Back Support** is our latest innovation in seating, offering maximum postural support for those with reduced mobility. With a pin assembly function for effortless mounting, the **E2 Back Support** is also available in a wider range of widths and heights to ensure maximum fit. The new leading edge Ripple Foam technology provides temperature control and enhanced immersion for the most comfortable support ever.

Ergonomic Design

The new ergonomic design increases support and pressure distribution to ensure a more precise and comfortable fit. The design has been contoured to support the pelvis and allow clearance of the hips to increase stability and balance.

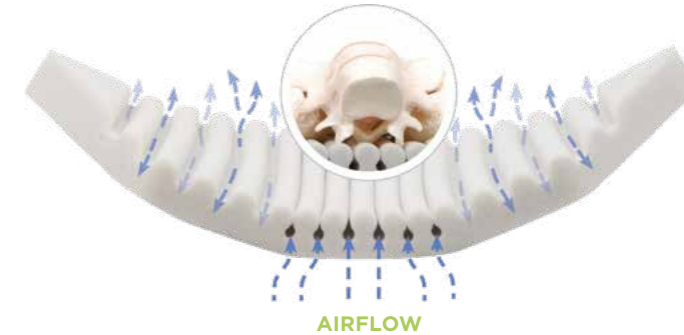

Back Shell

- ▶ Cutouts for airflow
- ▶ Vertical slots for Hardware attachment
- ▶ Coccyx notch
- ▶ Pre-drilled for PostureFlex Abdominal support

Ripple Foam Technology

The rippled foam surface increases airflow for breathability, temperature control and moisture reduction. The high resilience foam provides the spinal relief area with enhanced immersion and shear reduction.

Cover

- ▶ Moisture resistant and breathable Meshtex™ outer cover
- ▶ Foam and cover overlap the shell for protection and comfort

Mounting Pin Assembly

The back supports are mounted onto the chair and secured with an easy adjust mounting pin assembly. The flexible hardware is designed to match the needs of a range of body shapes and sizes, and can even be adjusted when the user is seated. It can also be positioned to avoid frame obstacles - such as arm supports and rigidizer bars etc.

Mounting Pins

- ▶ Height and width adjustable
- ▶ Fits chairs same as model width or 2.5cm wider / narrower
- ▶ Back height can be adjusted even with user seated in back
- ▶ Hardware can be positioned to avoid frame obstacles like arm supports and rigidizer bars
- ▶ MiniSet interface standard on back heights up to 41cm, EasySet interface standard on 46/51cm back heights

The Matrix E2 Back Support is available in two contour depths

▲ **E2 Back**
E2 Standard - 8cm Contour

▲ **E2 Deep Back**
E2 Deep - 15cm Contour

Product Specifications

- ▶ Width: 36/38/41/43/46/48/51cm
- ▶ Height: **NEW 15/20/26/31/36/41/46/51cm**
