

Invacare® | **Propad® Visco Cushion**

Dual layered cushion - conforms to the shape of the client

The *Invacare Propad Visco cushion* is a dual layered cushion, using a combination of high density, temperature-sensitive, visco-elastic (memory) foam in conjunction with a highly resilient foam base, to provide added support and longevity. The **Propad Visco cushion** is suitable for those considered 'At Risk' of developing pressure ulcers.

Yes, you can.®

Visco Elastic (Memory) Foam Top

The top foam layer of the cushion is made from high density visco elastic (memory) foam, which conforms to the shape of the body, combining exceptional comfort with a fully supported feeling.

Robust Foam Base

The high density foam base, provides added support, and prevents the cushion from bottoming out, ensuring longevity of the product.

Features and Options

Cover helps to prevent a build up of shear and friction forces against the client

Cover is multi stretch, water-resistant and vapour permeable. The cover also features an anti-slip base.

Available in a range of sizes
